

DR. WAYNE BOOKER, MEMBER OF THE KOÇ HOLDING BOARD OF DIRECTORS, PASSED AWAY

Dr. W. Wayne Booker, who served as a member of the Koç Holding Board of Directors since 1999, has passed away.

Dr. Wayne Booker worked at Ford Motor Company in various positions for a period of more than 40 years. He initiated many projects on behalf of Ford and made significant contributions to the global automotive industry.

Mustafa V. Koç, the Chairman of the Koç Holding Board of Directors, stated in his speech that they were deeply sorry for the loss of Dr. Wayne Booker. Koç pointed out that they were grateful to Dr. Booker for his contributions both during the time he worked at the Ford Motor Company and his membership in the Koç Holding Board of Directors since 1999.

He indicated that the passing away of Dr. Booker, who had great contributions to Ford Otosan in reaching its current position in the Turkish automotive industry, was an important loss for Ford and the entire automotive world. He added that he was profoundly honored to have Dr. Booker as a member in the Koç Holding Board of Directors for many years.
